MODERN TOWER CHIMES

(Played by Organist from Electric Keyboard)

Inventive genius has made the operation of Modern Tower Chimes as simple and easy as picking out a tune with one finger on the piano. The tone—round, full and velvety—is fully controlled by electrically operated striking actions and dampers which latter prevent all tone intermingling. Cost is moderate. Concerted action will enable US to have Chimes ringing by NEXT Christmas.

THE MEMORIAL SUBLIME

To persons of affluence these modern Chimes present the one most fitting and enduring form of Memorial. Inquiry addressed to J. C. Deagan, Inc., 279 Deagan Building, Chicago (to whom we are indebted for these folders) will bring, without obligation, full information including attractive Memorial Booklet.

RAYNER LITHO. CO. CHICAGO

SAFEGUARDS ALONG THE XN HIGHWAY.

Pro. 16:17 The highway of the upright is to depart from evil.

Rom 12:21 Be not overcome of evil, but overcome evil with good.

INTRO. The 3000 miles of travel this vacation. Up in the mts., along the coast, thru valleys, over rolling country. Mostly good wide road, some narrow and steep with sharp turns. Grateful for the signs and helps along the road.

Life itself is a highway, with many hills and steep grades and sharp curves. The Xn highway is very much the same. Safeguards and signs are necessary for safeguarding the traffic. Let us consider some of them.

I. "Keep to the Right." One of the best rules of the road Many accidents happen because of disregard to this sign.

It is not enough that a Xn is on the right road. He Must also be on the right side of the right road.

Architects often have trouble with their clients who insist on their own plans for a house.

George's house at Santa Monica.

Very often we go to the Great Architect with our lives and in the same fashion we ask God to design our lives according to the we have planned, instead of seek His guidance and wisdom.

II. "Drive Slow And See Our Town; Drive Fast and See Our Jail".

The Xn life is full of welcome and warning.

III. "Drive Slow. Men At Work".

Consideration for others.

IV. Driving at Night.

The glaring lights. Some dim their lights .

V. The requirement- focussed 75 ft. ahead. Does'nt seem enough. We wish to see far ahead. But the little is sufficient. One day at a time.

V. "Road Closed For Repairs"

The Gospel Highway is never closed. It needs no repairs. It never caves in or wears out or becomes blocked.

It is true that we who travel it oft need to stop for repairs on ourselves. The storm- the trees. Fai
